

Get ready to Grow Wild Registration for seed kits is now open

Hello Community Groups

The Mournes Heritage Trust has teamed up with Grow Wild to share thousands of free seed kits so their members can transform their local spaces into beautiful, inspiring and colourful wild flower havens.

We're now part of one of the UK's biggest-ever seed sowing campaigns and help to create over one million square metres of wild flowers in spring 2015.

Register today to receive wild flower seeds native to your country for you to share with people in your group or community in spring.

There are 120,000 free kits up for grabs across the UK and all you need to do to register on behalf of your group/s is fill in Grow Wild's simple two-minute form at <https://www.growwilduk.com/register-seed-kit?partnerid=c5f303e0>

Registration closes at midnight on 14 February 2015 and the kits will be sent out in late March, just in time for spring sowing.

Please pass on this registration web link to other groups you know that might also like to join.

Group leaders who received spring 2014 kits can register again for our spring 2015 kits.

Many thanks
The Grow Wild team

Get your name down for a #free seed kit thanks to Mournes Heritage Trust - using @GrowWildNI's simple two-minute form. Whilst stocks last. Order before midnight on 14 February 2015. bit.ly/1A6FscO #wildflowers.

Three reasons to join one of the UK's biggest-ever seed sowing campaigns

1. The exclusive seed kits are designed to help your group/s grow beautiful, colourful wild flowers, which will be a haven for bees, birds and butterflies. As well as the fun of sowing the seeds, there's the huge intrigue of seeing plants grow and flower through summer.
2. Your group/s will benefit from getting outside to enjoy some healthy outdoor activity, learning new skills and showing how it's possible to make a real difference to where you live. It's a great way of bringing a bit more wildness into our lives.
3. There's a guide to help you and your group get started on your Grow Wild adventure and lots of useful tips and hints on the website. It's a great chance for your group to try something new in 2015, as well as 2016 with a little seed saving and the plants in our mix that flower after winter.

Three reasons to register for exclusive seed kits

1. Each Grow Wild kit contains seed for five people, so on the registration form, we'll ask you how many people there are in your group/s to the nearest five. We'll then post the right number of seed kits for your group/s in late March 2015 ready to transform spaces where you live.
2. You can apply for up to 20 seed kits. Each kit has seed to transform at least 10 square metres, so please share the packets with people to sow in public spaces, streets, gardens, balconies and window boxes. Each kit also has a growing guide, DIY bee house and site markers.
3. We have different native seed mixes for England, Scotland, Wales and Northern Ireland, so we will send you the right mix for your country.

Registration is now open, so now's the time to get your name down for a free seed kit for your group/s. The Grow Wild form takes just two minutes at <https://www.growwilduk.com/register-seed-kit?partnerid=c5f303e0>

Registration closes at midnight on 14 February 2015 and seed kits will be sent out in late March, just in time for spring sowing.

Supported by the Big Lottery Fund and led by Royal Botanic Gardens, Kew; Grow Wild inspires communities, friends, neighbours and individuals across the UK to come together to transform local spaces, by sowing, growing and enjoying native wild flowers.
